Become Your Own Leading Lady: 7 Stages of Leading An Empowered Life is one of the women empowerment books that seeks to help every woman, regardless of age, become a “Leading Lady” and be the author of her own screenplay. In the book, author Daran Grimm helps clarify how each and every woman can become the Leading Lady of their own life and how doing so will be able to impact everyone around them in a positive manner.

Although a leading lady is described in the dictionary as “an actress who plays the most important female role in a play or movie,” Daran defines it differently. She believes that a leading lady is one who lives life to the fullest, carefully maps out her dreams and takes good care of her health. Not only that, a leading lady should also know how to laugh, smile, give joy to others, love herself and be genuinely happy. A leading lady shouldn't be afraid to live her life and shouldn't be restricted by the opinions of others. In short, a leading lady is a leader in every area of her life.

Most of the time, females just stop and adore all the powerful women in leadership they hear about in the news or watch in movies. What they don't know is that they too can become leaders in their own right – only if they take the

necessary steps to arrive at that point. And this is exactly what *Become Your Own Leading Lady* offers. It's one of those women leadership books that can be devoured by every lady so that they can take control of their lives and turn in around for the better.

Becoming a leading lady is not just about attitude. It is about the development of the spirit, emotions and senses as well. All of these attributes, when developed to the fullest – creates a more beautiful YOU, both inside and out. Through Daran's book, you can find all the insights you need to unleash the Leading Lady hiding deep within you.

Of course, who should know better about unraveling the inner Leading Lady than Daran herself? The principles she shares in the books are everything that she has made use of throughout her life. She has found that becoming a Leading Lady isn't just done straight away. No. In fact, it takes different stages for you to learn, grow and fully understand everything around you in order to become the Leading Lady you ought to be!

In the book, Daran shares a roadmap that consists of seven stages that you will follow. At the end of each stage, you will find action steps for you to apply to your own life. Just like a movie, these action steps serve as the guide on what you should do – call it a character development roadmap if you will.

Habits aren't formed overnight, and through this book you will learn to form good habits step by step. When you are ready to move on, that is when you take the next step into becoming a better you – not just for yourself, but for everyone around you, be it your family, friends or even co-workers.

No longer will you need women entrepreneur books to tell you how best to lead in your life for everything you ever need to know is mapped out in *Become Your*

Own Leading Lady.
