A short summary of the Casey Anthony case.

A narcissist, pathological liar, party mother, and murderer who was found not guilty after killing her daughter Caylee Anthony in 2008. This is a short telling of ex mother Casey Anthony' life before and after Caylee Anthony's passing disturbed and angered the nation.

Readers will also learn about the whole Anthony family household, where are the Anthony's now, the Casey and Caylee Anthony Case, each member who participated in the filicide trial, and how to deal with unwanted pregnancies.

What Casey Anthony is doing now will shock the reader.

A snippet from the book:

“The trial was commonly compared to the O. J. Simpson murder case, both for its widespread media attention and initial shock at the not-guilty verdict. At the start of the trial, dozens of people raced to the Orange County Courthouse, hoping to secure one of 50 seats open to the public at the murder trial.

Because the case received such thorough media attention in Orlando, jurors were brought in from Pinellas County, Florida, and sequestered for the entire trial. The case became a "macabre tourist attraction", as people camped outside for seats in the courtroom, where scuffles also broke out among those wanting seats inside.

The New York Post described the trial as going "from being a newsworthy case to one of the biggest ratings draws in recent memory", and Time magazine dubbed it "the social media trial of the century".

Cable news channels and network news programs became intent upon covering the case as extensively as they could. Scot Safon, executive vice president of HLN, said it was "not about policy" but rather the "very, very strong human dimension" of the case that drove the network to cover it.

The audience for HLN's Nancy Grace rose more than 150 percent, and other news channels deciding to focus on the trial saw their ratings double and triple. HLN achieved its most watched hour in network history (4.575 million) and peaked at 5.205 million when the verdict was read.

According to The Christian Post, the O. J. Simpson case had a 91 percent television viewing audience, with 142 million people listening by radio and watching television as the verdict was delivered.

"The Simpson case was the longest trial ever held in California, costing more than \$20 million to fight and defend, running up 50,000 pages of trial transcript in the process." The Casey Anthony trial was expected to "far exceed" these numbers.

Opinions varied on what made the public thoroughly invested in the trial. Safon argued the Anthonys having been a regular and "unremarkable" family with

complex relationships made them intriguing to watch.

In a special piece for CNN, psychologist Frank Farley described the circumstantial evidence as "all over the map" and that combined with "the apparent lying, significant contradictions and flip-flops of testimony, and questionable or bizarre theories of human behavior, it is little wonder that this nation [was] glued to the tube".

He said it was a trial that was both a psychologist's dream and nightmare, and believes that much of the public's fascination [had] to do with the uncertainty of a motive for the crime.

Psychologist Karyl McBride discussed how some mothers stray away from "the saintly archetype" expected of mothers. "We want so badly to hang onto the belief system that mothers don't harm children," she stated.

"It's fascinating that the defense in the Anthony case found a way to blame the father. While we don't know what is true and maybe never will, it is worth taking a look at the narcissistic family when maternal narcissism rules the roost."
