Whitby is located in Durham Region in Southern Ontario, east of Ajax and west of Oshawa, on the north shore of Lake Ontario. It is about twenty kilometers (12 miles) east of the Toronto borough of Scarborough. The southern part of Whitby is predominantly urban and an economic hub; the northern part is more rural and includes the communities of Ashburn, Brooklin, Myrtle, and Myrtle Station. Whitby was named after the seaport town of Whitby, Yorkshire, England. Settlement dates back to 1800, however, it was not until 1836 that a downtown business centre was established by Whitby's founder Peter Perry. Whitby's chief asset was its natural harbour on Lake Ontario, from which grain from the farmland to the north was first shipped in 1833. In the 1840s, a road was built from Whitby Harbour to Lake Simcoe and Georgian Bay, to bring trade and settlement through the harbour to and from the rich land to the north. Many residents commute to work in other Greater Toronto Area communities, and General Motors Canada in Oshawa is a major employer for all of Durham Region. Whitby has a steel mill, a retail support centre operated by Sobeys, and a major Liquor Control Board of Ontario warehouse. Four railways pass through Whitby. The Toronto-Montreal corridor main lines of the Canadian National Railway and Canadian Pacific Railway both pass east-west through the south end of town. A second CP line running from Toronto to Havelock passes through the northern part of Whitby. Via

Rail trains travel through Whitby, but the nearest station is in Oshawa. GO Transit provides frequent service via its Lakeshore East line.
