## Origins of Mohan Kumar

Mohan Kumar, the last of the tigers, was born in a remote part of the Indian subcontinent. His mother, a fearsome tigress, gave birth to him in a secluded den, hidden away from prying eyes. It is said that she sensed her son's destiny from the moment he was born, and from that point on, she did everything in her power to protect him and guide him towards becoming the magnificent beast he was meant to be.

As Mohan Kumar grew, he ventured out of the den and started exploring his surroundings. From an early age, his fierce nature and impeccable hunting skills set him apart from other tigers in the area. With every kill, he became more proficient and earned the respect of his fellow feline predators.
