

# Rebuilding Black Wall Street: The Pursuit of Economic Empowerment and Justice

It has been over a century since the vibrant community known as Black Wall Street was destroyed, but its legacy still lives on. Today, there is a growing movement to rebuild and restore what was once an extraordinary symbol of African American economic success, resilience, and communal strength.

The original Black Wall Street, located in the Greenwood district of Tulsa, Oklahoma, flourished during the early 20th century. It served as a shining example of what African Americans could achieve despite the oppressive racial climate of the time. Black-owned businesses thrived, and the area became a bustling hub for entrepreneurship, innovation, and cultural expression.

However, in 1921, tragedy struck when a white mob attacked the Greenwood district, leaving a trail of destruction in its wake. The prosperous community was reduced to ashes, with countless lives and dreams shattered. The events of that fateful day were forcibly silenced for decades, swept under the rug of history.
