

Removing The Barriers: Unlocking Innovation with IEEE Press

Are you tired of the barriers that limit your access to valuable knowledge and innovative ideas? Look no further than IEEE Press, the leading publisher in the field of technology and engineering.

With a rich history of over 130 years, IEEE Press has been dedicated to promoting and disseminating the latest research and advancements in the world of science and technology. Through their diverse collection of publications, IEEE Press empowers individuals and organizations to break free from limitations, opening new doors to creativity and innovation.

Driving Technological Advancements

IEEE Press aims to remove barriers that often obstruct progress in the fields of engineering and technology. By publishing cutting-edge research articles, books, and textbooks, IEEE Press provides a platform for groundbreaking ideas to reach a wide audience.

Through their extensive collection of peer-reviewed journals and conference proceedings, IEEE Press facilitates the exchange of knowledge, ensuring that the latest advancements are readily available to professionals, researchers, and students alike. By removing barriers to information, IEEE Press stimulates collaboration and accelerates technological advancements.

Breaking Language Barriers

One of the key initiatives of IEEE Press is to cater to a global audience. Recognizing the importance of linguistic diversity, IEEE Press has made significant efforts to translate their publications into multiple languages. By doing so, they break down language barriers and promote universal access to groundbreaking research.

Whether you speak English, Mandarin, Spanish, or any other language, IEEE Press ensures that knowledge is accessible to all. By removing language barriers, researchers and professionals from different parts of the world can connect, collaborate, and contribute to the technological advancements that shape our future.

Accessible to All

IEEE Press believes that knowledge should be accessible to everyone, regardless of their background or circumstances. To make this a reality, IEEE Press offers various avenues for accessing their publications, including open

access options. Open access allows individuals to freely access and download research articles, breaking down financial barriers that often limit access to valuable information.

In addition, IEEE Press has also partnered with libraries, universities, and institutions to provide affordable subscription options, ensuring that their publications reach individuals from all walks of life. This commitment to accessibility sets IEEE Press apart, making them a driving force in shaping the future of technology and engineering.

Long-Term Impact

The impact of IEEE Press's efforts goes beyond the immediate benefits of knowledge sharing. By removing barriers and empowering individuals, IEEE Press plays a crucial role in driving global innovation and progress.

As individuals gain access to the latest research and advancements, they are equipped with the tools and inspiration necessary to push boundaries and develop groundbreaking solutions to some of the world's most pressing challenges.

Furthermore, the inclusive approach of IEEE Press fosters a collaborative environment where diverse perspectives and novel ideas converge, leading to breakthrough innovations that revolutionize entire industries.

In a world that is constantly evolving, it is essential to remove barriers and equip individuals with the knowledge necessary to drive progress. IEEE Press, with its commitment to accessibility and knowledge sharing, is at the forefront of this movement. By unlocking innovation, empowering individuals, and breaking down barriers, IEEE Press continues to shape the future of technology and engineering, leaving a lasting impact on society.

AUTOMATED VEHICLES AND MaaS

A topical overview of the issues facing automated driving systems and Mobility as a Service, identifies the obstacles to implementation and offers potential solutions

Advances in cooperative and automated vehicle (CAV) technologies, cultural and socio-economic shifts, measures to combat climate change, social pressures to reduce road deaths and injuries, and changing attitudes toward self-driving cars, are creating new and exciting mobility scenarios worldwide. However, many obstacles remain and are compounded by the consequences of COVID-19. Mobility as a Service (MaaS) integrates various forms of public and private transport services into a single on-demand mobility service. Combining trains, cars, buses, bicycles, and other forms of transport, MaaS promises a convenient, cost-effective, and eco-friendly alternative to private automobiles.

Automated Vehicles and MaaS: Removing the Barriers is an up-to-date overview of the contemporary challenges facing CAVs and MaaS. Written in a clear and accessible style, this timely volume summarizes recent research studies, describes the evolution of automated driving systems and MaaS, identifies the barriers to their widespread adoption, and proposes potential solutions to overcome and remove these barriers. The text focuses on the claims, realities, politics, new organizational roles, and implementation problems associated with CAVs and MaaS—providing industry professionals, policymakers, planners, administrators, and investors with a clear understanding of the issues facing the of automated driving systems and MaaS. This important guide and reference:

- Provides an overview of recent progress, the current state of the art, and discussion of future objectives
- Presents both technical background and general overview of automated driving systems and MaaS
- Covers political, commercial, and practical issues, as well as technical and research content, yet suitable for non-specialists
- Helps readers make informed decisions and realistic estimates for implementing mobility solutions and new business models for transport services
- Includes an extensive bibliography with direct links to in-depth technical engineering and research information

Automated Vehicles and MaaS: Removing the Barriers is an essential resource for transport providers, vehicle manufacturers, urban and transport planners, students of transportation, vehicle technology, and urban planning, and transport policy and strategy managers, advisors, and reviewers.
