You will learn all about the Constitution one paragraph at a time. The original meaning of many of the phrases, ideas, and requirements of the Constitution have been lost over time, and our education system no longer teaches anything about the actual Constitution. Most courses spend more time on the history of the Constitution than on the actual document itself. The People, who are one of the powers that created the Constitution, do not read or understand what it says. This book will help correct that oversight by explaining the Constitution in plain contemporary language. I explain the paragraphs and discuss their meanings and intentions. The Constitution isn't hard to read, we just don't take time to do it.
