First published in 1802, "The American Practical Navigator" was authored by Nathaniel Bowditch, a self-taught mathematician and astronomer. Bowditch revolutionized maritime navigation by simplifying complex mathematical concepts into practical rules and tables.

The book quickly gained recognition among sailors, ship captains, and navigators worldwide. Its accuracy and comprehensiveness made it a crucial tool for safe sea travel. Bowditch's work was later recognized as one of the most influential navigational texts ever written, with its impact enduring through the 21st century.
