The mighty Zambezi River has intrigued geographers and explorers since the Middle Ages when it was known as the Empire of Monomotapa. The first European to reach the upper Zambezi was David Livingstone in the 19th century.

When the stresses of a demanding corporate environment became untenable, Mike Boon decided to take it easy and tackle the 3 000 kilometers of the Zambezi, single-handedly, in a kayak. He was in for 100 days of paddling through war-torn countryside, boiling rapids, and crocodile-infested waters.

While the ingredients of this story make for an action-fuelled ride down the river, it is the character of Mike Boon that sets this account apart from the usual wilderness adventure. A man of contrasts – driven by lingering demons of his past and terrifying flashbacks – Mike embarks upon a process of reconciliation with himself, his continent, and his world.
