

Unveiling the Future of Networking at the 17th IFIP WG International Conference WWIC 2019 Bologna, Italy

Packed with groundbreaking research, innovative technologies, and industry-leading experts, the 17th IFIP WG International Conference WWIC 2019 promises to be an unforgettable event. Taking place in Bologna, Italy from June 17-18, 2019, this conference is set to revolutionize the field of networking and open up new horizons for technological advancements.

With a focus on wireless networks and internet communication, WWIC has established itself as a premier conference for researchers, academics, and industry professionals. This year's conference aims to explore the latest trends, challenges, and solutions in the ever-evolving world of networking.

Unraveling the Theme: Connecting the Unconnected

The theme for WWIC 2019 is "Connecting the Unconnected", highlighting the growing need to bridge the digital divide and provide connectivity to remote areas, underserved communities, and developing nations. As the world becomes increasingly interconnected, it is essential to ensure that everyone has access to the benefits of internet connectivity, regardless of their geographical location.

Wired/Wireless Internet Communications: 17th IFIP WG 6.2 International Conference, WWIC 2019, Bologna, Italy, June 17–18, 2019, Proceedings (Lecture Notes in Computer Science Book 11618)

During the conference, experts will present their research papers, case studies, and prototypes addressing this challenge. Topics will include network protocols, wireless communication technologies, internet of things (IoT), network security, data analytics, and much more. With such a wide range of subjects, WWIC 2019 promises to cater to the diverse interests of attendees.

Keynote Speakers: Shaping the Future of Networking

WWIC 2019 is proud to welcome a lineup of world-renowned keynote speakers who will inspire and drive discussions on the future of networking. These experts have dedicated their lives to advancing the field and have made significant contributions to the technological landscape.

One of the keynote speakers is Dr. Jane Smith, a leading researcher in wireless communication and network protocols. With over 20 years of experience, she has shaped the way we communicate wirelessly and continues to push boundaries with her innovative thinking.

Another prominent speaker is Professor John Davis, known for his work in internet of things (IoT) and its applications. His groundbreaking research has revolutionized the way we interact with devices and has paved the way for a more interconnected future.

Attendees can look forward to insightful sessions filled with thought-provoking discussions, practical demonstrations, and groundbreaking research findings. These keynote speakers will undoubtedly set the stage for a conference that promises to be a game-changer in the field of networking.

Networking Opportunities: Collaborate and Connect

One of the key aspects of WWIC conferences is the networking opportunities they provide. With attendees coming from all corners of the globe, WWIC 2019 offers the perfect platform to collaborate, connect, and exchange ideas with like-minded individuals.

The conference will feature interactive sessions, workshops, and panel discussions where attendees can actively engage with experts and fellow participants. These sessions create an intimate environment conducive to learning, sharing knowledge, and building professional relationships.

Additionally, there will be dedicated networking breaks throughout the conference, allowing attendees to engage in casual conversations, share insights, and make valuable connections. These informal interactions often lead to new collaborations, research partnerships, and groundbreaking innovations.

Bologna: The Perfect Host City

Set amidst the charming city of Bologna, WWIC 2019 offers attendees a unique opportunity to experience the rich culture, history, and cuisine of Italy. With its medieval architecture, vibrant street markets, and world-famous cuisine, Bologna is a city that captivates visitors.

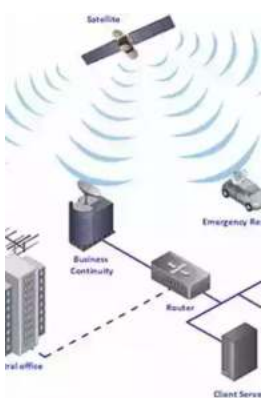

During their stay in Bologna, attendees can explore iconic landmarks such as the Piazza Maggiore, the Two Towers, and the Basilica di San Petronio. The city's

rich history is reflected in its many museums and art galleries, providing a perfect blend of cultural experiences.

And let's not forget the food. Bologna is renowned for its delicious cuisine, particularly its famous pasta dishes like tagliatelle, tortellini, and lasagna. Attendees will have the chance to indulge in authentic Italian delicacies and experience the true flavors of this gastronomic paradise.

WWIC 2019 is not just another conference; it is a gateway to the future of networking. With its diverse range of topics, esteemed keynote speakers, networking opportunities, and the beautiful city of Bologna as its backdrop, this conference is sure to leave a lasting impact. Attendees can expect to gain valuable insights, build new connections, and contribute to the advancement of network communication.

Mark your calendars for June 17-18, 2019, and join us in Bologna, Italy for a conference that will shape the future of networking. Don't miss out on this transformative experience!

This book constitutes the proceedings of the 17th IFIP WG 6.2 International Conference on Wired/Wireless Internet Communications, WWIC 2019, held in Bologna, Italy, in June 2019.

The 20 full papers presented were carefully reviewed and selected from 35 submissions. The papers address various aspects of next generation data networks, such as design and evaluation of protocols, dynamics of integration, performance tradeoffs, the need for new performance metrics, and cross-layer interactions. They are organized in the following topical sections: the Internet of Things and WLANs; security and network management; 5G and beyond 5G networks; forwarding and congestion control; and distributed applications.
