Wild Animals at Home is a classic wildlife text by Ernest Thompson Seton. I have aimed to show something of the little aspects of the creatures' lives, which are those that the ordinary traveller will see; I go with him indeed, pointing out my friends as they chance to pass, adding a few comments that should make for a better acquaintance on all sides. And I have offered glimpses, wherever possible, of the wild thing in its home, embodying in these chapters the substance of many lectures given under the same title as this book.
